

3KW solar power generation equipment price

How much does a 3KW solar panel system cost?

A 3kW solar panel system costs around ₹9,000 to buy and install. If you want to add a battery to this system, it'll push the price up by about ₹2,000, for an overall cost of ₹11,000.

Is a 3KW solar panel system enough?

A 3kW solar panel system is enough for your household if it approximately matches your annual electricity consumption. But you should always consider getting as large a solar panel system as your roof allows, if you can afford to.

How much power does a 3KW Solar System produce?

A 3kW solar panel system in the UK will produce an average annual output of around 2,550kWh, if it's dealing with typical UK irradiance. This means you'll usually produce roughly 85% of your system's peak power output.

How do I create a 3KW Solar System?

You can create a 3kW system by purchasing solar panels with power ratings that add up to 3,000 watts (W) when connected to each other - for example, seven panels that are all rated at 430W.

How much roof space does a 3KW Solar System take up?

On average, the roof area required for a 3kW solar panel system is around 12m - 17m². With a typical solar panel being 1m x 1.7m, a 3-kilowatt system of 6-8 solar panels would take up that much roof space, depending mainly on the wattage per panel and how the system is tilted.

Will a 3KW solar panel system help you live off-grid?

A 3kW solar panel system will only provide you with enough electricity to live off-grid if you can be careful with your consumption and use significantly less energy in winter. A 3kW solar panel system is a standard size for a household with two or three bedrooms, and can massively cut your electricity bills.
