

**DESCRIPTION** This is a metal bodied desoldering pump. It does exactly what it says on the tin, push down the plunger, put it next to molten solder, press the button and it sucks it up and away. There are rubber o-rings on the nozzle to ensure a good vacuum, but this is a no thrills, dead useful piece of equipment.

Desoldering equipment. Showing 1-20 of 45 results Sorted by popularity. Filters ... Handy for the removal of solder after dismounting surface-mounted components including BGAs. SKU: HFR150-85 ... Battery-powered suction pick-up tool with built-in vacuum pump;

Desolder Stations at CPC. Competitive prices from the leading Desolder Stations distributor. Check our stock now!

There are three tabs on the battery. Just heat up the tabs one at a time and apply some pressure to the battery, alternating on the different tabs, and it'll slowly "walk" its way out. Clean up the old solder with the wick, install the new battery or battery holder, and apply the new solder.

The quality is genuine and prices are affordable. Desoldering Equipment Electronic components and circuit boards with soldered connections are removed using desoldering ...

100°C - 450°C (212°F - 850°F) - Suitable for a wide range of desoldering tasks, from general component desoldering to high-temperature applications like lead-free soldering. Tip Compatibility: Compatible with XDS series tips, which are specifically designed for efficient desoldering of through-hole components and surface mount devices (SMDs).

Digital desoldering rework station featuring adjustable temperature control from 160 to 480°C and ergonomically designed gun for use with lead free solder. The station features an LCD display for set point and actual tip temperature. It is suitable for a wide range of applications including use with SMT and PCB components. Input voltage: 220-240V

It is suitable for a wide range of applications including use with SMT and PCB components. Input vol. 200W desoldering rework station featuring adjustable temperature control from 160 to 480°C and ergonomic design for use with lead ...

We stock an extensive range of soldering and desoldering tools that includes soldering irons, desoldering and

soldering stations, iron tips, desoldering wicks and fume extraction equipment.

Desoldering equipment - Hakko in Ireland is sold and supported by HK Wentworth Group, the only hakko authorised distributor for the UK and Ireland.
