

Which battery testing equipment do you offer?

Our product range covers Megger, Chauvin Arnoux, Extech, Tenmars. We offer a range of battery testing equipment, from Megger and Programma including Torkel battery capacity testers, DC load banks, internal resistance testers, digital battery hydrometers and density meters allowing you to test storage battery systems for power systems and forklifts.

What is instruments battery test (InSb)?

The Instruments Battery Test (INSB) comprises two parts. This test assesses assimilation of the briefing and the ability of an individual to read and interpret the dials of an instrument panel of an aircraft. The candidates who score the minimum laid down criteria are subjected to the machine test.

Why do you need a battery testing equipment?

We offer a range of battery testing equipment, allowing you to test battery capacity to prevent expensive downtime in the event of a power failure. Megger Torkel Load Units perform accurate load/discharge testing for determining actual battery capacity.

Why should you use a battery tester?

Our battery testers are capable of testing impedance and capacity to assess whether batteries are fit for purpose. This can help avoid costly down time on crucial battery-powered equipment whether this is in a vehicle, a piece of machinery or a telecommunications installation. Our product range covers Megger, Chauvin Arnoux, Extech, Tenmars.

The "HRM-10" is our company's first handheld high-precision internal resistance meter. It is a true four-wire measurement internal resistance meter, designed with precision, convenient to carry. The device can automatically test internal resistance and voltage values simultaneously, with measurement results displayed on the screen. Users can also

Company Introduction: Sichuan Falad Electronic Technology Co., Ltd. Specialize in critical DC power backup for utility, telecom, UPS, power generation, data centers and renewable energy applications. It is a high-tech enterprise, which dedicated to R& D, manufacture and marketing of battery test equipment in the power and communications industries.
