

What is a 9v battery pack?

This is a 9V battery pack with on/off switch and a pre-attached 5.5mm/2.1mm center-positive barrel plug. Use this to battery-power your Arduino (or other electronic projects) - it's ready to go out of the box! Battery & screw not included. I found these high-quality battery clips.

What is the size of the 9v battery?

The size of the 9v battery is 55mm*52mm*17mm, which is 100% compatible for 9v devices. The installation is simple and convenient, just align the positive and negative electrodes. The 9v battery takes only 1.5 hours to charge, and it is equipped with a USB charging port, so the battery can be charged at any time.

What is a Chauvin Arnoux replacement battery pack NIMH 4Ah?

The Chauvin Arnoux replacement battery pack NIMH 4Ah for Qualistar. These alkaline industrial batteries are designed with a power reservoir that enables them to last for longer periods of time. These non re-chargeable batteries have high current and large capacity making them perform to high standard and a longer life.
