

What is integrated solar street light?

The Integrated Solar Street Light (i.e. All in Two Solar Street Light) is integrated by the PV panel system and lamp fixture. Different with traditional solar street light, it splits the whole solar LED street light into two parts -- The solar power lighting system and the LED fixture. Hence it's quite easy for installation and maintenance.

What is all in one solar street light?

We supply manufacturer OEM/ODM service to bring you a unique value. All in One Solar Street Light has 30° mounting angle, when it combines with rotatable LED module, the solar lighting system is very flexible in installation. All brackets are aluminum alloy, so that the whole light fixture is strong but light weight.

What is a split solar LED street light?

The split solar LED street light (i.e. all in two solar street light) is widely used, it is not only for road, but also for laneway, garden, park, square etc. We supply manufacturer OEM/ODM service to bring you a unique value.
