

Eni New Energy US has bought a large-scale battery storage project in development in Texas from developer Baywa r.e., along with a utility-scale solar PV plant nearby. The 200MW/400MWh battery energy storage ...

The project was first announced in 2018, with another 100MW project at Shannonbridge also unveiled. Together, the two battery energy storage systems (BESS) were set to involve a EUR150 million (£135 million) combined ...

ILI Group has a portfolio of over 4.7GW energy storage projects, including 2.5GW of utility-scale battery storage and 2.5GW pumped storage hydro. In July, the group submitted a Section 36 planning application ...

Moss Landing Energy Storage Facility, at 400MW/1,600MWh the world's biggest battery energy storage system (BESS) project so far, is back online. Owner Vistra Energy had called a temporary halt to its operation and ...

A handful of LDES specialists have already benefited from this grant programme, including iron-air battery technology firm Form Energy which received US\$30 million at the end of last year as reported by Energy-Storage.news. The 5MW/500MWh standalone BESS, located at a substation owned by investor-owned utility (IOU) Pacific Gas & Electric ...

Financial close has been reached for a 25MW / 100MWh battery energy storage system (BESS) project in Belgium which has also been successful in a grid capacity auction alongside gas-fired power plants. The ...

5 ???· Fidra Energy and Sungrow formed a strategic partnership in November 2024 to implement 4.4 gigawatt hours of battery energy storage projects across the UK and Europe by 2030. Sungrow will supply its PowerTitan 2.0 energy storage system to two Fidra sites in the UK, offering long-term maintenance services.

Denmark has been relatively quiet for grid-scale energy storage projects, though an 18MWh thermal energy storage project did start commissioning late last year. Virtual power plant (VPP) companies including ...

The Enderby battery storage project is located near Leicester in Leicestershire. With a peak output of 50MW, it has the potential to provide enough power for over 110,000 average UK homes ...

All data is taken from our UK Battery Storage Project Database report. Currently, the total operational capacity for battery storage in the UK is 1.3GW with 130MW having ...

Battery Energy Storage Systems (BESS) Webinar . Discover how battery energy storage can help power the energy transition! Case studies in Electric Vehicle fleets and repurposed 2nd life batteries in residen...
