

How will sidera's new steel plant benefit Buenos Aires?

The plant will produce 360,000 metric tons of steel annually and aims to boost exports while creating over 3,800 jobs. In a significant move to enhance Argentina's industrial landscape, Sidera has announced a substantial investment of \$50 million to establish a state-of-the-art steel manufacturing plant in Buenos Aires.

Why did sidera invest in Buenos Aires?

Sidera's investment is not only a testament to the company's commitment to innovation and growth but also a crucial driver for economic development in Buenos Aires. By boosting steel production, the plant will play a pivotal role in meeting both domestic demand and increasing Argentina's steel exports.
