

What is a Redtop battery?

Delivering immense power to the starter in the initial starting phase, REDTOP batteries feature patented SPIRALCELL TECHNOLOGY and are ideal for applications where starting power is the priority. Commercial agricultural equipment and construction equipment are two markets where OPTIMA REDTOP batteries have become very popular.

What is a Redtop AGM battery?

The REDTOP high-performance AGM battery is the ultimate starting battery and is designed to deliver a strong burst of ignition power for a reliable start-up every time. It has high power delivery and extreme resistance to the most common causes of battery failure.

What are Optima Redtop batteries used for?

Commercial agricultural equipment and construction equipment are two markets where OPTIMA REDTOP batteries have become very popular. Of course, they perform great in emergency vehicles, generators and street cars as well.

What is Optima red top?

Optima Red Top is the product of choice for professionals who are looking for maximum performance and minimum space requirements, e.g. for motor sports vehicles or off-road applications. Absolutely maintenance-free! No acid leakage, independent from position. Faster charging, increased power, improved ability to withstand extreme temperatures.

Does the Optima Redtop work?

The REDTOP's extremely low self-discharge rate means you can leave it untouched for extensive periods of time, and it'll still start your engine. And that can enhance productivity by reducing maintenance times and engine repair costs. But the OPTIMA REDTOP offers more than just a powerful start.
