

What is a car battery warranty?

A car battery warranty is a promise from the manufacturer or retailer that the battery will perform as expected for a certain period. If it doesn't, they'll replace or repair it at no extra cost to you. Think of it as a safety net for your peace of mind.

What if my battery is covered under warranty?

If the battery is covered under warranty, we will issue you with a brand new replacement and within 5 working days will refund the £20 deposit in full. No other refund, credit or exchange will be accepted within the warranty framework. The £20 covers the cost of a parcel collection only.

What happens if a battery has problems within the warranty period?

If your battery has issues due to these factors within the warranty period, the manufacturer will repair or replace it at no cost. Warranties vary significantly among manufacturers and types of batteries. Understanding these differences is crucial for making informed decisions when purchasing batteries.

How do I claim a warranty on a Tayna battery?

1. Battery test by Tayna Batteries The most effective way to claim under warranty is to return the battery to us. We have been testing batteries for almost two decades and have all required modern testing equipment. You can either return the battery to us via tracked delivery or arrange for us to collect the item from you.

Do you offer a warranty on lithium-ion batteries?

For our lithium-ion batteries, we offer warranties designed to reflect our commitment to quality and reliability. Typically, our warranties cover several years, ensuring long-term customer support. However, warranty specifics can vary.

What are the different types of battery warranties?

Types of battery warranties Battery warranties come in various forms, each with its terms and conditions. Here are some common types: Standard Warranty: This is the basic form of warranty that covers defects in materials and artistry for a limited time, usually one year.
