

Who is the best solar LED street lighting company in China?

As one of the best solar LED street lighting company in China, SUNVIS solar products conform or exceed the CE/IEC/UL/TUV industry standards,. That's why we have won many projects orders from the United Nations. Need A Quote For Your Project?

Are solar street lights maintenance free?

The solar street lights are designed to be essentially maintenance free. In regions with frequent rain, the tilt angles of the solar panels allow for self cleaning of dust. However, in places where rain is infrequent, periodic manual cleaning of the solar panels may be required.

Why should you choose solar street lights?

Just let us know your needs, such as: Solar street lighting provides a sustainable and economical solution compared to conventional LED street lights. They use renewable energy from the sun to power the lights, meaning they don't contribute to climate change or environmental pollution.

What are solar street lights made of?

The poles of these outdoor solar street lights are made from Q235 steel hot-dip galvanised then finished with a plastic spray, and the LED luminaires are made from die-cast aluminium profiles that are corrosion resistant and can withstand a variety of harsh weather conditions for installation, including sandy and salt spray environments.
