

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

What's happening at London's Energy Storage Summit?

There is something for everyone at the Summit. one of London's most exclusive nightclubs. All delegates are invited to attend this event, hosted by Envision, on Tuesday 18 February - get ready for good vibes and a great playlist! This is an event where you are guaranteed to meet over 2000 delegates from across Europe's energy storage value chain.

The GCF board approved an initial \$12 million grant for Cook Islands to install energy storage systems and support private sector investment in renewable energy. This investment will see ...
