After contracting by 10% in 2016, the new vehicle market grew by 9% in 2017. This recovery continued in 2018 when the sector expanded by 14%, with a total of 11,376 units sold. This strong performance can be attributed to a combination of factors, including the resumption of public orders; resumed activity in the

Côte d'Ivoire recorded 375,533 new households with electricity, including 251,133 connections funded by PEPT, a 2014 program which allows households with low incomes to pay for electricity over a 10- year period after ...

Cote d'Ivoire has abundant natural sources of renewable energy such as solar and wind power, hydraulic energy, biomass energy and biogas energy. This investigation found that solar energy, biomass energy and hydraulic energy are not being utilized sufficiently at present, but these energies could play an important role in the future of Cote d'Ivoire's ...

Société Générale and the World Bank's International Finance Corporation have co-arranged a \$300m structured trade facility for Société Ivoirienne de Raffinage (SIR), to help finance oil imports for the Abidjan refinery. IFC and Société Générale will each participate with up to \$100m in the facility, while BNP Paribas and Standard Chartered Bank will also take part.

It is set to create several hundred direct and indirect jobs while enabling Côte d'Ivoire to increase the share of renewables in its energy mix. Upping electricity rates in Côte d'Ivoire Sangafowa-Coulibaly also noted that the country's electricity sector master plan for 2040 shows it wants to triple electricity production capacity, increasing it from the current 2,907MW ...

The 37.5 MWp (megawatt-peak) plant, owned and operated by CI-Energies (Côte d'Ivoire Energies), will be the first large-scale solar project in Côte d'Ivoire. The primary role of the ESS will be capacity firming and smoothing of the solar plant's inherently intermittent output to ensure a predictable and reliable feed into the local grid.
