How much does it cost to clean solar panels?

You can also hire someone to do it professionally, which will usually cost around \$10 per panel- so the total cost will depend on how many panels you have. If it snows on your panels, don't brush it off, as this will probably cause them damage. It'll melt on its own. To learn more, read our guide to solar panel cleaning.

How much do solar panels cost?

The cost of solar panels has fallen dramatically over the past few decades. Customers across the world paid \$130.70 (\$102.89) per watt in 1975 - meaning a 3kWp system would've cost you \$297,750, with all prices adjusted for inflation.

What are the different types of solar panels?

The two most common types of solar panels are monocrystalline and polycrystalline, and your choice will affect the overall cost. It'll also affect your system's efficiency - that is, how much of the light that hits your panels they can transform into electricity. Monocrystalline panels are more expensive but have a higher efficiency of up to 24%.

How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about \$9,000, including installation. This jumps up to around \$11,000 if you're adding a 5kWh battery. This is a great time to get a solar & battery system, as there's currently 0% VAT on both panels and batteries.
