Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Made with a proprietary 9-layer ChargeGuard(TM) system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. [Shop Now](#)

What is a lithium ion cabinet?

What is a lithium-ion cabinet? A lithium-ion cabinet, also known as a battery charging cabinet or battery safety cabinet, is a special fireproof storage unit designed to charge and safely store multiple batteries simultaneously.

What is a battery charging cabinet?

Organisation and tidiness: a battery charging cabinet enables batteries to be stored centrally and neatly. Efficient charging: The charging cabinet usually offers individual slots or compartments for each battery. This allows batteries to be charged simultaneously and efficiently.

What is a lithium battery charging fire safe?

Phoenix Lithium Battery Charging fire safes offer this proven environment to improve safety in the workplace. Lithium Battery Charging and Storage Cabinets are designed to safely charge and secure lithium-ion batteries by offering an auto closing door, ventilation ducts to reduce heat and fire tested to EN14470-1. For use indoors only.

Do battery charging cabinets have lockable doors?

Lockable doors: Most battery charging cabinets have lockable doors to control access to the batteries and prevent unauthorised entry. An integrated locking status indicator shows the status in colour. [Loading...](#)
