Justrite's Lithium-Ion battery Charging Safety Cabinet is engineered to charge and store lithium batteries safely. Made with a proprietary 9-layer ChargeGuard(TM) system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. [Shop Now](#)

What types of storage cabinets are available for lithium-ion batteries?

Various cabinet sizes and equipment variants are available for the safe storage of lithium-ion batteries. There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries.

Are there safety cabinets for lithium ion batteries?

There are safety cabinets that are used exclusively for the passive storage of batteries, as well as those that allow both the storage and charging of lithium-ion batteries. ION-LINE passive storage safety cabinets offer a standard 90-minute fire resistance rating both from the outside to the inside and vice versa.

What is a lithium ion battery charging unit?

This unit acts as a mobile charging hub for Li-ion batteries used in modern power tools, and as it is weatherproof, can be used indoors or outdoors. Lithium-Ion Battery Charging Cabinet (600 mm wide) with smoke detector for the active storage of lithium-ion batteries with 7 metal locker compartments.

Why do you need a lithium ion battery cabinet?

These cabinets effectively prevent a fire from spreading from the outside to the batteries stored inside. At the same time, the risk of a fire inside the cabinet caused by the lithium-ion batteries or accumulators is also minimized because spread to the surrounding area is prevented.

What is a hazardous material cabinet for lithium ion batteries?

Hazardous material cabinet for the active storage of lithium-ion batteries, offers fire protection from inside and has a sophisticated, 3 level fire warning/suppression system.
