Browse 5,368 authentic lithium battery stock photos, high-res images, and pictures, or explore additional lithium battery storage or lithium battery pack stock images to find the right photo at the right size and resolution for your project.

A lithium-ion battery has four main components, which include the cathode, anode, separator, and electrolyte. The cathode (the positive side) is typically a combination of nickel, manganese, and cobalt oxides. The anode

(the negative side) is commonly made out of graphite. Both the cathode and the anode store the lithium.
