

What are lithium stocks?

Lithium stocks are commodity stocks that have principal interests in the mining, refining and distribution of lithium. The companies included under the umbrella of lithium stocks may be involved in the production of other metals and minerals, but lithium will be included in their portfolio.

Which lithium stocks are a good investment?

The present marketplace presents an attractive opportunity for investors to pick up shares of the biggest lithium stocks like Tesla, Inc. (NASDAQ:TSLA), Albemarle Corporation (NYSE:ALB), and QuantumScape Corporation (NYSE:QS) at discounted prices. These firms are leading the lithium revolution.

Should you buy lithium stocks?

Having established the rationale for considering lithium stocks, it is now time to examine the top picks. Lithium supply is estimated to rise 32% in 2025, surpassing the 23% demand growth. The surplus in supply is anticipated to peak in 2027, and a deficit is expected to emerge by the end of the decade, according to industry experts.

Should you invest in a lithium & battery tech ETF?

For example, it commands a more than 9% allocation in the Global X Lithium and Battery Tech ETF (LIT), which boasts \$1.5 billion in assets at present. Therefore, if investors pile into exchange-traded funds, or ETFs, as a way to play lithium, ALB stock will see an outsized benefit from these capital flows.

Are lithium stocks a risky investment?

Lithium stocks, like all commodity stocks, are closely linked to the supply and demand trends in the underlying materials they produce. All investing generally carries risk, and miners like this have specific risks based on their business model. That said, we've tried to highlight leaders in the sector based on:

What is lithium & battery technology ETF (lit)?

This ETF, like its competitor Amplify Lithium & Battery Technology ETF (BATT), offers further diversification by including battery and EV exposure along with pure-play lithium stocks. LIT tracks the Solactive Global Lithium Index and includes Albemarle and EV players like Tesla Inc. (TSLA) and BYD Co. Ltd. (OTC: BYDDY).
