

Where in the Philippines will a solar power plant be located?

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).

What is the impact of a solar power project in the Philippines?

The project has strong sustainability credentials, notably because of its impact in decarbonising the Philippines' energy system (SDG7), but also by generating power to support economic development (SDG8), creating more than 10,000 new jobs (SDG8), and facilitating local development (SDGs3+4).

Who owns 100% of Solar Philippines?

The transaction with Solar Philippines New Energy Corporation, which currently owns 100% of the project, was announced at a signing ceremony in Pasig City, Philippines, attended by Torbjorn Caesar, Chairman and Senior Partner at Actis, Manuel V. Pangilinan, Chairman of Meralco, and Emmanuel V. Rubio, CEO of Meralco PowerGen (MGen).

What is the Terra solar project?

We stand together at the site of what will become the largest integrated solar and battery storage facility in the world--the Terra Solar Project. This landmark project will put our country on the map as a leader in renewable energy," President Marcos Jr. said during the ceremony.

Is Xinjiang solar the largest solar project in the world?

A claim that the project is the largest in the world appears to hold up. The world's biggest solar PV plant is the 5GW Xinjiang Solar project in the northwest of China's Xinjiang region, which went online earlier this year through state-owned Zhonghuan New Energy Co Ltd, but does not include battery storage.

Will MERALCO PowerGen's new p200-billion solar & battery storage facility generate jobs?

Meralco PowerGen Corp. PRESIDENT Ferdinand Marcos Jr. on Thursday said the completion of the new P200-billion integrated solar and battery storage facility of the Manila Electric Company (Meralco) in Nueva Ecija will not only generate thousands of jobs, but also help meet the country's renewable energy target.
