

What is a car battery power pack?

A car battery power pack, also known as a jump start battery pack, is a portable battery that can provide a boost to start a car when the main battery is drained. Some models include an additional feature of a cigarette lighter port that can be used to charge or power mobile phones, making it a useful addition to any caravan and camping kit.

Why should you buy a portable car battery jump starter?

These compact power packs are crucial for those unexpected moments when your car battery decides to take an untimely break. Gone are the days of being stranded waiting for a kind stranger with jumper cables; the portable car battery jump starters have revolutionised how we tackle dead batteries.

Can a portable jump starter jump-start an EV battery?

No, a portable jump starter cannot jump-start an EV battery. The reason lies in the fundamental difference between the batteries used in petrol engine vehicles and those in electric vehicles. In a conventional car, the battery's primary role is to start the engine, and a jump starter can provide the necessary boost for this task.

Is it time to replace a car battery?

A portable jump starter gives you immediate energy, but if you find your car battery keeps losing power, it might be time for a replacement. We stock a massive range of car batteries, suitable for all vehicle makes and models.

What kind of batteries can I carry out emergency jumpstarts?

Check stock to see your delivery and collection options: A heavy-duty portable but powerful kit that allows you to carry out emergency jumpstarts on 12V batteries found in cars, motorcycles, vans, trucks and 24V batteries found in trucks.

What is a battery booster pack?

A battery booster pack delivers a charge to a flat or low vehicle battery, typically designed for use in an emergency to help start a vehicle's engine. It is also referred to as a jump start battery pack. Some ranges include a cigarette lighter port that can be used to charge or power mobile phones.
