

New Delhi Lithium Battery Project Tender Announcement

What should a bidder do with a lithium ion battery?

When a lithium ion battery reaches the end of its useful life, the bidder should have a disposal or recycle plan for it. The batteries should be in completely discharged condition prior to their disposal. (Disposal/Battery Recycling Plan)

How should a bid be prepared for this tender?

Before submitting a bid for this tender, bidders are advised to carefully study the tender Document. Submission of a bid shall be deemed to have been done after careful study and examination of the procedures, terms, and conditions of the tender document with full understanding of its implications.

What happens if a bidder doesn't comply with the tender documents?

A bidder's failure to furnish all information required by the tender documents or submission of a bid that is not substantially responsive to the Bid Document in every respect is at their own risk and may result in outright rejection of the bid. (9)

Can lithium ion / advance lead acid batteries be incinerated?

The DC connection terminals of the batteries must be insulated with electric tape to prevent accidental contacts. The Li-Ion/advance lead acid batteries can be incinerated. The packaging materials shall be labeled as lithium ion/advance lead acid batteries.

What is BSES Rajdhani Power Limited (BRPL)?

BSES Rajdhani Power Limited (BRPL) is a joint venture of Reliance Infrastructure Ltd. and the Government of NCT of Delhi.

Can lithium ion batteries be incinerated?

The Li-Ion/advance lead acid batteries can be incinerated. The packaging materials shall be labeled accordingly. Incineration must be performed by an approved and permitted waste treatment facility that handles lithium ion batteries.
