As finite rational individuals 24, the strategy choice of each participant in the new energy battery recycling

process is not always theoretically optimal, and the new energy battery recycling ...

When drafting the internal audit report, readers' needs should be considered. The results should be presented in an organized way, such as placing observations in chronological order, by significance, or grouping by topic, cause, or effect/risk. To achieve this, wording that is simple and relatively free of technical jargon should be used, and
