LIKE, COMMENT, SUBSCRIBE. In this video I am rebuilding a Milwaukee 18v NiCad battery, replacing

some of the cells for this power tool.

Ok, I did the deed and shocked my battery packs back to service. I used the batteries on a golf cart for the power source, as the optimum voltage is 36 volts, and the golf cart has 6 - 6volt batteries (36 volts). The trick is to only hold the connection for a few seconds and check the battery pak voltage.
