

Why should you buy a portable power supply?

Home of the worlds most advanced,innovative and eco-friendly battery-powered generators,our portable power supplies free you from the constraints of spare batteries and limited power,to live,dream and explore without limits. Ideal for camping,outdoor adventures and remote locations,our charging technologies are the fastest available.

Should you buy a portable power station with solar charging capabilities?

A lot of people also use portable power stations for outdoor activities like camping as well as long road trips and off-grid living. With so much time spent in the sunshine and away from mains power,it makes sense to choose a portable power station with solar charging capabilities.

Should I buy a camping power pack?

If you plan on spending a decent amount of time camping without a mains hookup, you may want to invest in a camping power pack. These are essentially large lithium batteries which can store electricity and generate AC and/or DC power to power your electrical camping gear.

Why should you choose a lithium battery for a solar power station?

The first-rate lithium battery offers reliable charging to power multiple devices. Besides the efficient solar charging capability of the solar power station,it is known for its high durability. Built with the best 94V-0 fire rating fireproof material,the product can sustain severe damage.

What is the battery capacity of explorer 1000 power station?

Featuring a battery capacity of 1002Wh,the portable power station is suitable for charging all devices during camping and power outages. Excellent features of the Explorer 1000 power station include three standard pure sine wave AC outlets,compact design,MPPT charge controller,and an industrial-grade quiet power station.

How do you charge a camping power pack?

The best camping power packs can be trickle charged using solar panelsand therefore allow you to essentially live off-grid for many days and weeks at a time if the sun is shining reasonably brightly. Of course you can also charge a power pack directly from the mains or your car battery if required.
