

What is the capacity of Energizer portable power station?

Suitable for Smartphones, tablets, small appliances and more, this versatile Energizer portable power station provides 96,000mAh ultra-high capacity with 1x 300W AC outlet, 2 DC ports, 2x USB-A outputs and single USB-C port to cater for all your favourite devices.

What is the best portable power station?

The PS300 is among the most portable power stations in the market, thanks to its space-saving design and comfortable handle. Its Lithium batteries manage to pack higher power density with a lighter weight. The PS300 is designed to reduce excessive noise levels while efficiently charging devices⁴.

How many watts can a PS300 power?

The maximum total output of the PS300 is 330W. If the output of the appliance's actual use surpasses that value, the Error Indicator on the smart screen will be displayed. A compatible solar panel must be purchased separately and will be available from EZVIZ soon. Based on test results from the EZVIZ Lab.

How many watts can an AC outlet deliver?

The AC outlets can deliver a maximum of 300W rated power to connected devices (600W with SurgePad). All AC outlets support SurgePad. Q5: How do I obtain car charging and solar charging cables? The car charging and solar charging cables can be purchased separately. Contact the Anker support team for more information.

Is the PS300 solar compatible?

The PS300 is also solar-compatible to work with green energy sources. Whenever you can't reach a flashlight in emergencies or need extra ambient light for the great outdoors, just turn on PS300's built-in LED light for illumination. The maximum total output of the PS300 is 330W.
