

How much will battery electric cars cost in 2026?

Our researchers forecast that average battery prices could fall towards \$80/kWh by 2026, amounting to a drop of almost 50% from 2023, a level at which battery electric vehicles would achieve ownership cost parity with gasoline-fueled cars in the US on an unsubsidized basis. Source: Company data, Wood Mackenzie, SNE Research, Goldman Sachs Research

How much does an electric car battery cost?

Remember to always check the type of warranty offered by your chosen electric car manufacturer. Also, the cost of batteries fell about 80% between 2010 and 2016 according to McKinsey, from \$1000 to \$227/kWh. Therefore, a new 40kWh battery in 2016 would have cost just shy of \$10,000.

How many battery-electric cars are there?

There are over 100 battery-electric vehicle models on the market from over 30 manufacturers. Photo: Getty Images Analysis: Here's what's available if you're in the market for a new car and want to go electric in 2025

How much does a battery EV cost in 2025?

(8) Dacia and Hyundai are selling battery EVs for less than EUR20,000 in 2025. (9) Citroen is selling the two-seater battery EV Ami for less than EUR10,000. (10) At the other end of the price scale, you can buy the Mercedes Maybach for EUR209,000 or the Porsche Taycan Turbo for EUR266,000.]

Who makes electric car batteries?

There are a large number of electric car battery manufacturers. Some are well known such as Tesla and Nissan, while others such as BYD or LG Chem, may not be as well-known around the world, but are nevertheless, significant players in the electric car battery manufacturing space.

Do you need a replacement battery for an electric car?

At 70% capacity, an electric car is still very usable, so you may not need a replacement battery for ten years or more. The exception is if you own a small EV that has a low range to begin with. However, the technology is still constantly evolving, so we may reach a point where the batteries outlive the vehicles.

Each BEV comes with the following information: model, type, price, useable/nominal battery capacity, WLTP range (with the EV Database real-world range ...
