

What are solar sign lighting kits?

Solar sign lighting kits are a great way to illuminate your signs, banners, billboards, and other outdoor advertising materials. Suninone sign lighting products use the power of the sun to provide bright, energy-efficient, and eco-friendly lighting for your signs.

What is a solar powered sign light system?

This professional, solar powered sign light system includes two 5w or 10w LED light bar fixtures. Ideal for internal or external illumination of monument signs, box signs, cabinet signs, church signs, pylon signs, notice boards etc. The light bar fixtures low profile design enables it to be installed..

What types of signs can be powered with a solar lighting kit?

These include internally lite, channel lettering lite, or externally lite signs that can all be powered with a solar lighting kit. When you look at installation, traditional sign lighting systems can require long runs of electrical wire (from a power source to the light fixture), which often need to be buried (trenched) and re-landscaped over.

What is a Sun-in-one solar sign kit?

Sun-In-One Solar Sign Kits are not just for sign lighting. In fact, they can be used for a wide variety of applications: flood lighting, monument/flag lighting, parking lot lighting, security lighting, billboard lighting, and to power LED and channel letter signs.

What is a solar sign light fitting?

This unique, solar sign light fitting is an integrated, all-in-one design. It can be installed below the face of a sign to illuminate it in an upwards direction. It can also be installed above a sign for downwards illumination across the sign face. It's supplied as a complete system, ready for install..

Why should you choose solar-powered signage & displays?

From roundels to timetable displays, our solar lighting systems can lead the way. Using minimal electricity, all of which is generated solely through sunlight, our solar-powered signage and displays have no negative impact on the planet, helping to create an environmentally-friendly transport industry.
