Rosendahl's Soft Spot Solar is a portable table lamp with a softly diffused light reminiscent of the glow of a candle lantern. Featuring a steel frame with a white plastic diffuser, Soft Spot Solar is designed for both indoor use as well as evenings on the patio or garden - the portable solar-powered lamp can be charged either with a USB cable or its built-in solar panel.

Soft Spot Solar Circular is designed for both indoor use as well as evenings on the patio or garden - the portable solar-powered lamp can be charged either with a USB cable or its built-in solar panel. Designed by Maria Berntsen, Soft Spot Solar uses sensor technology that makes the lamp turn on and off automatically at dusk and dawn.

Solar panels should be kept free from obstructions to absorb the most sunlight, and if you live in an area with snowfall, the buildup can definitely stand in their way. ...

The new Rosendahl Soft Spot Solar Circular is an updated version of the iconic Soft Spot Solar lantern - now made from GRS-certified recycled materials. The recycled materials are of course designed for separation and recycling, as is the rest of the lantern. The lantern has a built-in solar panel, which means that the

One of the main concerns when cleaning solar panels is achieving a spot-free dry. Traditional cleaning methods often involve using tap water, which can contain minerals that leave unsightly water spots on the panel surface. ...
