What is a power purchase agreement (PPA)?

A Power Purchase Agreement (PPA) refers to a contractual agreement between two parties, typically a power producer and a customer. The producer usually arranges the design, gains the necessary permissions and manages the installation of a solar PV system on the customer's property at little to no cost.

What is a PV installation agreement?

The Installation Agreement is a lump-sum agreement between the project company, as owner of the project, and the installation contractor, the contractor that will be responsible for installing the PV system, providing the balance of plant and commissioning the plant.

What happens when a solar PV contract ends?

When the contracts come to an end the customer can choose to remove the system, extend the PPA or purchase the energy system. On-site solar PV generation can take the form of either a large-scale rooftop installation on a commercial or industrial (C&I) site, or a ground-mount installation on adjacent land.
