

State subsidies for civilian use of solar panels

Could a government subsidise solar panels?

Millions of homes could be offered grants and cheap loans to install solar panels as the government scrambles to hit its 2030 clean energy pledge. Ministers are reportedly drawing up plans to subsidise the cost of fitting solar panels and batteries in houses across the country in a bid to meet one of Sir Keir Starmer 's key election pledges.

Are there government grants & incentives for solar panels in the UK?

There are several government grants and incentives available for the installation of solar panels in the UK. ECO4 is a government-backed scheme worth £4 billion designed to improve the energy efficiency of the least energy efficient households in the UK.

Are there government grants for solar panels?

We will update this page as and when there is an official change in policy. There are no government grants specifically for solar panels, but are more steered towards improving energy efficiency. All is not lost, though, as some grants can be used to install them as part of energy efficient upgrades.

Can you get free solar panels under a government scheme?

Applying for free solar panels under a government scheme provides UK households with an affordable way to cut electricity bills and reduce carbon emissions. With grants like ECO4, eligible households can access not only solar panels but also energy efficient systems like ASHP and insulation to further lower energy costs.

What are solar panel grants & funding schemes?

Solar panel grants and funding schemes like Energy Company Obligation are designed to encourage homeowners to invest in renewable energy and reduce their carbon footprint. These schemes can help offset the upfront cost of installing solar panels, making it more affordable for individuals to switch to clean energy.

Can you get a solar energy grant in 2023?

The grant opened in April 2023 and will run until March 2025. It can be used to fund home improvements, such as insulation, heat pumps, double glazing, solar thermal, and solar PV panels. As of February 2024, 28% of the grants handed out have been for solar panels, so applying for the grant is worth a shot if you're eligible.
