

Summary of the Lead-acid Battery Industry Report

What is the global lead acid battery market size?

The global lead acid battery market size was valued at USD 45.84 billion in 2023 and is projected to grow from USD 48.32 billion in 2024 to USD 71.68 billion by 2032, exhibiting a CAGR of 5.05% during the forecast period. Asia Pacific dominated the lead acid battery industry with a market share of 39.26% in 2023.

What drives lead acid battery market growth?

Rising demand for lead acid batteries and rapid technological advancements and expansion in the telecom sector, are major factors driving market revenue growth. Lead acid battery, also known as lead storage battery, is a rechargeable battery, which uses lead and sulfuric acid materials for the function, and are highly reliable.

What is the segmentation of the global lead acid battery market?

On the basis of application, the global lead acid battery market is segmented into automotive, UPS, telecom, electric bikes, transport vehicles, and others. The automotive segment is expected to account for significantly large revenue share in the global lead acid battery market during the forecast period.

How big is the lead acid battery market in 2023?

The lead acid battery market in 2023 was valued at USD 95.9 billion and is estimated to grow at 3.1% CAGR by 2034 owing to increasing demand for uninterrupted power supply.

Who makes lead acid batteries?

Key lead-acid battery manufacturers, including Crown Battery, EnerSys, C&D Technologies, East Penn Manufacturing, and NorthStar, largely drive the growth of the North American lead acid battery market share. These companies are focused on product development, which leads to the introduction of advanced lead-acid batteries in the market.

How big is the lead-acid battery market?

Lead-Acid Battery Market Research, 2032 The global lead-acid battery market was valued at \$52.1 billion in 2022, and is projected to reach \$81.4 billion by 2032, growing at a CAGR of 4.6% from 2023 to 2032.

U.S. Battery Recycling Market Size & Trends . The U.S. battery recycling market size was estimated at USD 374.28 million in 2023 and is expected to grow at a CAGR of 38.1% from 2024 ...

Report Overview. The U.S. motive lead acid battery market size was valued at USD 1,190.22 million in 2022 and is expected to grow at a compound annual growth rate (CAGR) of 3.3% from 2023 to 2030. Lead acid batteries find ...

Report Overview. The global lead acid battery market size was valued at USD 37.98 billion in 2022 and is

Summary of the Lead-acid Battery Industry Report

expected to grow at a CAGR of 4.6% from 2023 to 2030. The market is estimated to witness growth owing to the growing ...

The report also focuses on the competitive landscape of the global Lead-Acid Battery market, and introduces in detail the market share, industry ranking, competitor ecosystem, market performance, new product development, operation situation, expansion, and acquisition. etc. of the main players, which helps the readers to identify the main competitors and deeply ...

The global lead acid battery market size was valued at USD 48.50 billion in 2024 and is projected to grow from USD 51.03 billion in 2025 to USD 73.96 billion by 2032, exhibiting a CAGR of 5.44% during the forecast ...

India lead acid battery market highlights. The India lead acid battery market generated a revenue of USD 5,491.1 million in 2023 and is expected to reach USD 9,594.2 million by 2030. The India market is expected to grow at a CAGR of 8.3% from 2024 to 2030. In terms of segment, automotive was the largest revenue generating application in 2023.

The lead acid battery maintains a strong foothold as being rugged and reliable at a cost that is lower than most other chemistries. The global market of lead acid is still growing but other systems are making inroads. Lead acid works best for standby applications that require few deep-discharge cycles and the starter battery fits this duty well ...

One major source of historical lead contamination at sites is from lead-acid battery recycling facilities. 2, 3 In 2016, the California Legislature passed the Lead-Acid Battery Recycling Act. 4 (Act) to help the Department of Toxic Substances Control (DTSC) investigate and address impacts caused by lead-acid battery

The Lead Acid Battery Market Report 2023-2033: This report will demonstrate value addition to new entrants striving for new revenue pockets and eyeing to enter new markets, also if they wish to better understand the trade and its ...

UAE lead acid battery market highlights. The UAE lead acid battery market generated a revenue of USD 1,879.9 million in 2023 and is expected to reach USD 2,916.5 million by 2030. The UAE market is expected to grow at a CAGR of 6.5% from 2024 to 2030. In terms of segment, automotive was the largest revenue generating application in 2023.

The report begins with an Executive Summary chapter and ends with Conclusions and Recommendations. Get a free sample copy of Asia Pacific Lead Acid Battery Market report by clicking the "Download a Free Sample Now!" button at the top of the page. Table of Contents. 1. Executive Summary
