

Unplugged solar electrical prefabricated cabin

How does eco Cabin 24 work?

The Eco Cabin 24 welfare cabins, with patented technology, slash running costs by completely omitting the use of a generator. Instead, all of the power needed is drawn from eight solar panels housed on the portable building's roof. The unit itself is heated by a small fuel tank which is also powered by solar energy.

Are your cabins built for life off-grid?

Our cabins are built for life offline, so you can escape the constant buzz of technology with a 3 or 4 night digital detox. Every cabin includes a phone lockbox, a replacement Nokia (yes it has snake), an instant camera, books and games to truly switch off. Beautiful, sustainable and built for going off-grid.

What is a solar cabin?

The Solar Cabin is an off-the-grid home. It's fully assembled, and turn-key build for you. This tiny home has a full insulation package, wood package, wood stove, plumbing, and a solar electric package. It comes in three different sizes: 14'x20', 14'x30', 14'x26'. It features four-season insulation to let you get comfortable all-year-round!

What makes Act a sustainable cabin?

DESIGNED BY ACT. Experience the ultimate in sustainable living with ACT's fully off-grid cabin, designed to meet our high standards of craftsmanship, sustainability, and elegance. This Scandinavian-inspired cabin reflects the essence of minimalism, blending form and function to create a space that is both serene and practical.

What is a solar-powered home?

Created as a prototype for low-carbon residential development, the home features a solar system, rainwater harvesting system, a dehumidifier for recapturing water from the air, and a gray water system for irrigating the edible garden.
