

Can a solar system be installed on a roof?

It isn't a particularly disruptive process,taking place almost entirely on your roof rather than inside your home. The only internal piece of most solar PV (photovoltaic) systems is the inverter,which will usually sit in your loft. Compared with having windows or a kitchen fitted,a solar installation is pretty low hassle.

What is a solar roof system?

The system is made up of individual panels mounted onto the roofwhich sit on top of your existing tiles or other roof finish. This solar roofing system is proven and widely available,but the main downside is the aesthetics. With an on-roof system,the panels are clearly added on as an afterthought and are not integrated into your home.

Can a photovoltaic system replace roof cladding?

It is possiblefor photovoltaic systems to replace roof cladding entirely. This is known as a solar or energy roof. Additionally,PV modules can be integrated into the roof cladding. Solar roof tiles are a special type of in-roof installation. They can be integrated into the existing roof cladding without any extra mounting systems.

How do I install a solar PV system?

The first step in installing a solar PV system is meeting with a qualified solar installer. During this initial consultation, the solar company will: - Assess your energy needs : By reviewing your electricity bills and understanding your consumption patterns, the installer can recommend the right size and capacity of the solar system.

Can a PV system be installed on a roof?

A PV system can be installed in two different ways. One possibility is on-roof mounting. In-roof mounting is an additional. Here,portions of the roof covering are replaced by PV modules,which turn into a crucial component of the roof cladding.

Can solar panels be mounted on a flat roof?

For solar panels on a flat roof,mounting systems are slightly differentand can include a triangle 'ballast' box to support the panels. For solar thermal panels (with cells that use the sun's heat to warm water in a house) things are a little different.
