

Where to buy environmentally friendly batteries in Gabon

Which rechargeable batteries are recycled?

In a step forward since our last battery guide, three brands of rechargeable batteries now get an extra half a Product Sustainability mark for using recycled content: Energizer: 15% recycled content in AA and AAA rechargeable batteries and 7% in C, D, and 9-volt. Varta: 21% recycled content in Recharge Accu Recycled AAA and AAs.

Which rechargeable batteries are included in the ecolabel?

Most of the batteries with this Ecolabel are disposables but the following brands of rechargeable batteries are also included: Varta Recharge Recycled AA & AAA and VARTA RECHARGE ACCU Power AA. Energizer Rech Power Plus AA & AAA, Rech Extreme AA & AAA. Duracell Ultra Power Rechargeable AA & AAA. GP - Recyko AA & AAA.

How can a battery be sourced locally and less destructive?

More abundant materials like sodium and sand are being looked at which can be sourced locally and less destructively. Other technologies such as metal-air batteries, solid-state batteries and the use of silicon are all vying to try and increase capacity, and also safety, while reducing production costs.

What type of battery should I buy?

You can buy AA and AAA lithium batteries (all the brands except Philips, Rayovac and Duracell) but you are most likely to see them as button or coin cells for things like watches. They are more expensive than alkaline batteries. Disposable zinc air batteries are a popular choice.

What devices can use a low-capacity battery?

Other devices which can use a low-capacity battery include garden solar lights and remote controls. Devices which require high-capacity batteries include, for example, digital cameras and some electronic toys. If you find you are replacing batteries frequently, a higher-capacity battery will provide longer lasting power.

Are batteries perishable?

This does mean that people are forced to use rechargeables, but all batteries are perishable, and it can make the whole product die with the battery. Perhaps there will be a renaissance of wind-up and mechanical things where batteries or any sort of electric power is not needed.

Searching for eco-friendly batteries? Your best bet is to weigh well-trusted brands like Energizer EcoAdvanced, Panasonic's Eneloop, Duracell's Eco Advanced, GP Recyko+, and Ikea's LADDA. All of these companies are making notable strides towards reducing environmental impact by introducing batteries that are reusable, comprised of recycled materials, or both.
